**LinkedIn:** www.linkedin.com/in/kevin-wang-900755289
**Personal Website:** https://kev-website-frontend.vercel.app/

## Profile

Motivated computer science graduate with hands-on experience gained through academic and personal software projects. Strong foundation in programming and problem-solving, with proven communication, teamwork, and adaptability developed through supervisory and customer-facing roles. Eager to begin a career in real world software development and contribute to building meaningful, socially impactful digital products.

## Technical Skills

- Hands-on experience with TypeScript, Python and Kotlin, applied in academic assignments and personal projects.
- Solid understanding of CSS fundamentals, with practical experience in responsive design in personal website.
- Experienced in designing and writing RESTful APIs.
- Implemented CI/CD pipelines using Vercel and Render to automate the build and deployment process for my personal website.
- Basic experience with PostgreSQL and MySQL, including data modelling and query writing.
- Familiar with Git for version control, including committing, branching, and basic conflict resolution.

## Soft Skills

- Strong team player, comfortable collaborating in agile development environments.
- Adaptable and eager to learn, with patience and persistence when acquiring new skills.
- Supportive and proactive, always willing to help others when assistance is needed.
- Excellent time management, able to prioritize tasks effectively and consistently meet deadlines.
